UPO-250
WITH CLIP

UPO-250 WITH CLIP

This double side fixed-louver, with our clip-on system, is designed to meet the requirements that other products cannot. The combination of our high strength UPO-250 profiles with the competitive advantage of our pin-free clip-on system, means the required distance between supports can be increased, thus solving the problems caused by expansion as well as unifying the final appearance, both from inside and outside of the buildings.

They are available in 3 angles (45°, 60° and 90°), and the clips can be attached to any kind of tubular support. They can be provided in 2-colour-slats or perforated blades as optional and can be used in both horizontal or vertical positions. In short, it is a high tech product line, designed to satisfy the most demanding aesthetic criteria.

PROJECT DESCRIPTION

UMBELCO fixed louvers model UPO-250 with clips in 45° / 60° / 90° inclination composed by double-side blades, 250 mm wide and 50 mm thick, diamond shaped, made of pre-painted aluminium coils (COIL-COATING certified), high weather resistance tested by salted fog (more than 400 hours in WEISS SSC 450 chamber). Polyamide end caps (nylon) with high resistance aluminium clips and supported by extruded aluminium frame, anodised or painted.
